(ENGLISH VERSION FIRST, DEUTSCHE VERSION NACH DER ENGLISCHEN)

---

Bottleneck Workgroup Analytics (english).....	4
Summary.....	4
Assumptions.....	4
The CBS Workgroup Model.....	5
CBS patterns and SUGGESTED interpretation.....	5
Pattern BBB - solution by the First Level Support.....	5
Pattern CBB - Ticket was <i>quickly</i> escalated to 2nd level support and they resolved it.....	6
Pattern BBS - Ticket was escalated to 2nd level support and they <i>quickly</i> resolved it.....	6
Pattern CBC - First Level support was waiting for Input.....	6
Pattern CBS - Did First Level support forward the ticket to the wrong workgroup?.....	6
Environment of empirical analysis.....	7
Evaluating the Bottleneck Time.....	7
Additional criteria.....	8
Analysis results.....	9
Introducing the timeclass-distribution.....	9
Analyzing pattern BBB Expecting “solution by the First Level Support”.....	11
Analyzing Pattern CBB Expecting “Ticket was <i>quickly</i> escalated to 2nd level support and they resolved it”.....	13
Analyzing Pattern BBS Expecting “Ticket was escalated to 2nd level support and they <i>quickly</i> resolve it” .....	14
Analyzing Pattern CBC Expecting “First Level support was waiting for Input”.....	14
Analyzing Pattern CBS Enquiring “Did First Level support forward the ticket to the wrong workgroup?”.....	14
Process stations / waiting times as a bottleneck.....	15
Conclusion.....	16
Bottleneck Workgroup Analytics (deutsch).....	17
Zusammenfassung.....	17
Voraussetzungen.....	17
Das CBS Workgroup Modell.....	18
CBS Muster und nahe liegende Interpretation.....	18
Muster BBB - Lösung durch den First Level Support.....	18
Muster CBB – Der 2nd Level Support wird <i>schnell</i> eingeschaltet und löst das Ticket.....	19
Muster BBS - Der 2nd Level Support wird eingeschaltet und löst <i>schnell</i> das Ticket.....	19

Muster CBC - First Level hat auf Input gewartet.....	19
Muster CBS – hat der First Level zur falschen Gruppe eskaliert?.....	19
Umgebung der empirischen Analyse.....	20
Bewertung der Bottleneck Time.....	20
Weitere Kriterien für die Analyse.....	21
Analyseergebnisse.....	22
Bewertung anhand der Timeclass-Distribution.....	22
Muster BBB - Lösung durch den First Level Support.....	24
Muster CBB - Der 2nd Level Support wird <i>schnell</i> eingeschaltet und löst das Ticket.....	26
Muster BBS - Der 2nd Level Support wird eingeschaltet und löst <i>schnell</i> das Ticket.....	26
Muster CBC - First Level hat auf Input gewartet.....	27
Muster CBS – hat der First Level zur falschen Gruppe eskaliert?.....	27
Prozess Stationen / Wartezeiten als Bottleneck.....	27
Fazit.....	29
